### Out-of-Town Travel plans Oct. 27-28 trip to Crystal Bridges Museum

he Out-of-Town Travel group has organized an overnight fall trip Oct. 27-28 to Bentonville, Ark., focusing on the Crystal Bridges Museum of American Art.

Twelve members have signed up for the overnight caravan. Judy Niebaum and Dave Marden, who chair Out-of-Town Travel, said enough drivers had volunteered to take everyone who responded to last month's ListServe query about interest and trip dates.

Anyone who did not sign up but would like to join the Crystal Bridges trip should contact Judy, 360-953-2240, *before* Oct. 14.

Crystal Bridges is the main attraction, but other highlights in the area include a Walmart Museum in downtown Bentonville and the Museum of Native American History as well as public gardens and arboretum sites. General admission to Crystal Bridges' permanent collection and grounds is free.

Members need to make their own lodging reservations. Judy and Dave suggested the Marriott Springhill Suites, 2304 SE Walton Blvd., but noted there are several chain motels and other options in Bentonville.

Judy and Dave are working to arrange at least one group meal during the overnight stay.

The location for drivers and riders to meet will be announced by email. The caravan will

depart Lawrence at 9 a.m. Thursday, Oct. 27, and return by early evening on Friday, Oct.28. Depending on traffic and rest stops, the 190-mile drive takes about four hours.

Crystal Bridges was conceived and built in 2011 by Alice Walton, Sam Walton's daughter. It is named for a natural spring and the bridge construction incorporated in the structure. The museum's unique design "celebrates the American spirit in a setting that unites the power of art with the beauty of nature." The grounds include a 120acre park with five miles of sculpture and walking trails that link to downtown Bentonville.

### Renovation, Reinstallation, Reimagining

KU's Spencer Museum of Art is a local and regional treasure. Much of the museum has been closed for the past year for a major gallery renovation. The project also included the creation of a second study center for class visits, research, and temporary installations. In early November, both levels of exhibition space will be open to the public, with innovative reinstallations of works from the permanent collection. Susan Earle, curator of European and American art, will provide an overview of the changes and a preview of what to expect the next time you visit this leading academic art museum. She will respond to questions and comments.

### No winter Endacott Tai Chi sessions Never too old for balance and strength training

aybe you saw the Aug. 12, 2022, New York Times wellness article asking: "Can You Pass the 10-second Balance On One Leg Test?"

Pass or fail, it says: "It's never too late to start working on balance training, even if you *can* pass the 10 second test, especially if you're over age 50."

Sacie Lambertson, who attends Endacott's Tai Chi sessions, alerted Haskell Springer to the article, which lists Tai Chi as an exercise that constantly shifts weight from leg to leg, helpful for balancing skills.

The Times article notes, "Balance training goes hand-in-hand with strength training. The stronger the muscles in your legs, glutes, feet and core, the better your balance. You can improve your balance by taking Tai Chi or yoga classes, but weight training, dancing, rock climbing or aerobics classes are also excellent ways to work on your balance skills."

The article includes with five balance exercises to improve strength. The New York Times is available online through the Lawrence Public Library.

Because Endacott's Tai Chi group will not meet in fall and winter months, Haskell passed the link on to the group. To keep routines fresh in the interim, he suggested two videos he had recommended earlier. In the first, "Open the Door to Tai Chi," the video instructor doesn't describe what the hands and feet should be doing with
